

Description:

To prevent disease, disability and premature death; to promote healthy lifestyles; and to protect and promote the health and quality of our environment.

Major Functions and Targeted Performance Standard(s) for Each Function:

1. Increase the percent of adults who engage in leisure-time physical activity..

- A. Number (and percent) of Public Health District clients in WIC and Family Planning clinics who receive education on the benefits of regular physical activity.

Actual Results			
2000	2001	2002	2003
25,000 (50%)	56,855 (94%)	62,378 (100%)	
Projected Results			
2004	2005	2006	2007
25,000 (50%)	25,000 (50%)	25,000 (50%)	25,000 (50%)

2. Confine the diabetes prevalence rate.

- A. Number of diabetes community education events (and estimated number of participants).

Actual Results			
2000	2001	2002	2003
28 (280)	131 (5,950)	118 (3,089)	
Projected Results			
2004	2005	2006	2007
28 (252)	28 (252)	28 (252)	28 (280)

3. Tobacco use.

- A. Number (and percent) of adults of Public Health District clients who smoke that receive tobacco cessation information.

Actual Results			
2000	2001	2002	2003
100%	13,987 (100%)	7,857 (100%)	
Projected Results			
2004	2005	2006	2007
100%	100%	100%	100%

- B. Number of tobacco prevention events held targeting youth.

Actual Results			
2000	2001	2002	2003
	223	283	
Projected Results			
2004	2005	2006	2007
35	35	35	35

4. Increase abstinence from alcohol, cigarettes, and illicit drugs among pregnant women to 94% for alcohol and 98% for tobacco.

- A. Number (and percent) of pregnant Health District clients who receive alcohol and illicit drug prevention education.

Actual Results			
2000	2001	2002	2003
10,000 (100%)	17,033 (100%)	16,553	
Projected Results			
2004	2005	2006	2007
10,000 (100%)	10,000 (100%)	10,000 (100%)	10,000

5. Reduce pregnancies among adolescent females.

A. Number of people (male and female) seen in Family Planning clinics who have received responsible sexual behavior counseling.

Actual Results			
2000	2001	2002	2003
30,000	32,576	33,689	
Projected Results			
2004	2005	2006	2007
30,000	30,000	30,000	30,000

6. Confine the prevalence of HIV infection.

A. Number of HIV tests performed in Public Health Districts clinics.

Actual Results			
2000	2001	2002	2003
3,924	3,000	2,908	
Projected Results			
2004	2005	2006	2007
3,000	3,000	3,000	3,000

7. Increase safety belt use to 92%.

A. Number of events (and participants) informing the public about the importance of seat belt use.

Actual Results			
2000	2001	2002	2003
21 (1,000)	206 (9,382)	95 (3,602)	
Projected Results			
2004	2005	2006	2007
21 (1,000)	21 (1,000)	21 (1,000)	21 (1,000)

8. Increase use of child restraints to 100%.

A. Number of child car seats distributed.

Actual Results			
2000	2001	2002	2003
1,000	3,197	3,718	
Projected Results			
2004	2005	2006	2007
1,000	1,000	1,000	1,000

9. Reduce infections caused by key food borne pathogens.

A. Number (and percent) of cases investigated for E. coli.

Actual Results			
2000	2001	2002	2003
100%	82 (100%)	62 (100%)	
Projected Results			
2004	2005	2006	2007
100%	100%	100%	100%

10. Reduce waterborne disease outbreaks.

A. Number of septic system permits issued.

Actual Results			
2000	2001	2002	2003
5,000	5,510	5,609	
Projected Results			
2004	2005	2006	2007
5,000	5,000	5,000	5,000

11. Increase the percent of young children who receive all vaccines that have been recommended for universal administration.

A. Number (and percent) of health district children, whose immunization status for 4:3:1 is UTD, who have received appropriate immunization for children (birth to 2 years) at Public Health District clinics.

Actual Results			
2000	2001	2002	2003
90%	2,517 (83%)	3,079 (83%)	
Projected Results			
2004	2005	2006	2007
90%	90%	90%	90%

12. Increase the number (and percent) of children under age 6 who participate in fully-operational population-based immunization registries.

A. Number (and percent) of children under age 6 who participate in fully-operational population-based immunization registries.

Actual Results			
2000	2001	2002	2003
95%	30,728 (26%)	74,963 (64%)	
Projected Results			
2004	2005	2006	2007
95%	95%	95%	95%

13. Increase the percent of adults who are vaccinated annually against influenza and ever vaccinated against pneumonia.

A. Number of influenza vaccines given.

Actual Results			
2000	2001	2002	2003
20,000	28,111	37,786	
Projected Results			
2004	2005	2006	2007
20,000	20,000	20,000	20,000

14. Increase the percent of women aged 18 years and older who received a pap test within the preceding 3 years.

A. Number of pap smears provided to women in Public Health District clinics.

Actual Results			
2000	2001	2002	2003
20,000	21,472	20,468	
Projected Results			
2004	2005	2006	2007
20,000	20,000	20,000	20,000

Public Health Districts

Public Health Districts

15. Increase the number of women aged 40 and older who have received a mammogram within the preceding 2 years.

A. Number of mammograms provided to qualifying women in the Women's Health Check Program in Public Health District clinics.

Actual Results			
2000	2001	2002	2003
2,000	2,140	1,746	
Projected Results			
2004	2005	2006	2007
2,000	2,000	2,000	2,000

16. Provide continuing education to develop competency in essential public health services.

A. Number of staff who received training in core functions and essential services.

Actual Results			
2000	2001	2002	2003
160	150	133	
Projected Results			
2004	2005	2006	2007
160	160	160	160
